

Weekly Coal Combustion Residual (CCR) Inspection Report

3 Jan 2025 / Heath Yearling

Complete

Score	3 / 9 (33.33%)	Flagged items	0	Actions	0
Site conducted	3063 - Rosemount Landfill -, Corporate (Overall), Central, Central/Minnesota				
Conducted on	3 Jan 2025 9:00 AM CST				
Prepared by	Heath Yearling				
Location	13425 Courthouse Blvd Rosemount MN 55068 United States (44.753752303761594, -93.01236570471353)				
Weather Conditions:	20				

CCR Landfill Integrity Inspection (per 40 CFR 257.84)

0 / 3 (0%)

Is bulging, sliding, rotation movement, or localized settlement observed on the side slopes or upper deck of cells containing CCR?

No

Are conditions observed within the cells containing CCR or within the general landfill operations that represent a potential disruption to ongoing CCR management operations?

No

Are conditions observed within the cells or within the general landfill operations that represent a potential disruption of the safety of the CCR management operations?

No

CCR Fugitive Dust Inspection (per 40 CFR 257.80(b)(4))		3 / 6 (50%)
Was CCR received during the reporting period? If the answer is no, no additional information is required.	Yes	
King ash		
Was all CCR conditioned (by wetting or dust suppressants) prior to delivery at the landfill?	Yes	
Was CCR spillage observed at the landfill scale or on landfill access roads?	No	
Was CCR fugitive dust observed at the landfill?	No	
Are current CCR fugitive dust control measures effective?	Yes	
Were CCR fugitive dust-related citizen complaints received during the reporting period?	No	

Additional Notes

CCR Landfill Integrity Inspection (per 40 CFR 257.84)

0 / 3 (0%)

Is bulging, sliding, rotation movement, or localized settlement observed on the side slopes or upper deck of cells containing CCR?

No

Are conditions observed within the cells containing CCR or within the general landfill operations that represent a potential disruption to ongoing CCR management operations?

No

Are conditions observed within the cells or within the general landfill operations that represent a potential disruption of the safety of the CCR management operations?

No

Was CCR received during the reporting period? If the answer is no, no additional information is required.

No
